§6 CARRIED & KEPT INVENTORY · NOTES

AT-TABLE REFERENCE

Roll 2d6 + the relevant Quality. Keep this side up while playing.

10+ It works, cleanly. **7–9** It works, *and* — a cost, a complication, a hard choice. **6–** The Surveyor moves against you; *mark experience*.

GO — Gumption

Act first, fast, before you know better.

10+ moving & in control. **7–9** moving but committed past stopping. **6–** you leapt; looking would've helped.

INSIST — Chutzpah

Bluff, demand, threaten, lie load-bearingly.

10+ they fold. **7–9** it holds, but they want something or remember you. **6–** called; you're the subject now.

REMAIN — Moxy

Endure a thing built to end you.

10+ you hold, unmarked. **7–9** hold, but mark a State or give ground. **6–** it got in; the Surveyor says how deep.

LOOK — Childlike Wonder

Study the strange; open to what's really going on.

10+ ask 3. **7–9** ask 1. Acting on it: +1 next roll. **6–** you see something you can't un-see.

READ — The Cut of Your Gib

Know how you land, or set how you land.

10+ both, Hold 2. **7–9** one, Hold 1. **6–** they read you better; the wrong conclusion costs you.

TEMPT IT — Je Ne Sais Quoi

Nothing else fits; the universe must decide. Once per scene.

10+ it tilts your way, hard. **7–9** useful, but opens a door. **6–** a debt comes due.

LEND A HAND / GET IN THE WAY

Help or hinder another's roll (stat by manner).

10+ ±2. **7–9** ±1, you share the risk. **6–** worse, and you're in it too.

NAME WHAT YOU WANT — no roll

At a pause, state one thing you want here.

The Surveyor puts it in reach — with a complication beside it. This is how you steer.

HOLD & FORWARD — scratch space

Track Hold from READ and any +1 forward here:

The Surveyor is on your side the way a coastline is on the side of a shipwreck. Play to find out what happens.
